

## Vídeos/Pòsters XVI Congress of the Catalan Society of Immunology (SCI)

P.1.4.Girbal *"Neprosin decreases gluten-derived inflammatory response in macrophages through proteolysis of the highly immunogenic gliadin peptide 33-mer"*

<https://vimeo.com/773841001/9e76313a70>

P.2.7.Casanovas *"Development of T-cell receptor (TCR)-modified T-cells for the recognition of NY-ESO-1 peptide presented on HLA-DRB3\*02:02"*

<https://vimeo.com/773841675/a6b0cfa3ba>

P.3.8. Grases-pintó *"Changes in immune composition of human milk from SARS-CoV-2 infected women"*

<https://vimeo.com/773842095/8705518bab>

P.4.11.Rodríguez *"Intracellular HIV-TAT initiates a cellular senescence programme in a Jurkat T-cell model"*

<https://vimeo.com/773843247/48139a8dbe>

P.5.13.Sáez *"Changes in the immunoglobulin profiles after synbiotic administration in pregnant and lactating rats"*

<https://vimeo.com/773867743/43175442a3>

P.6.14.Rio *"Galectins -1, -3 and -9 are present in breast milk"*

<https://vimeo.com/773868162/c0698b18a7>

P.7.15.Zhan *"Influence of supplementation with extra virgin olive oil during gestation and lactation on breast milk's immune factors"*

<https://vimeo.com/773868709/4dd23fd78d>

P.8.16.RuizIglesias *"Impact of intensive exercise on immune function: Effect of diets enriched in flavonoids"*

<https://vimeo.com/773869093/4342067658>

P.9.18.RuizBañez – No rebut - *"Optimization of the Multiplex Immunoassay for the determination of anti-dsDNA antibodies in the Systemic Lupus Erythematosus diagnosis"*

P.10.19.RuizBañez *"Study of the presence of anti-aquaporin 4 (AQP4) antibodies in elderly patients with frailty syndrome"*

<https://vimeo.com/773869791/3f8955abdc>

P.11.21.Bravo *"Usefulness of serum calprotectin as biomarker in pediatric rheumatic diseases"*

<https://vimeo.com/773870108/5170a0d8b4>

P.12.23. Lorca *"CDC-FCXM: Detection of donor-specific HLA-antibodies and their complement-dependent cytotoxicity by flow cytometry"*

<https://vimeo.com/774149134/4697aef102>

P.13.24.Osuna *"The immunoregulatory role of IL-35 in patients with interstitial lung disease"*  
<https://vimeo.com/773870448/102fbfb684>

P.14.29.Gallego *"Targeting hiv reservoirs in a novel human intestinal model of persistent infection"*  
<https://vimeo.com/774844996/28323a2051>

P.15.31.Bolaños *"Immune reconstitution in patients who received cyclophosphamide vs conventional treatment as graft-versus-host disease prophylaxis after allogeneic hematopoietic stem cell transplantation"*  
<https://vimeo.com/773871040/9a95af35f4>

P.16.33.Lynton *"Cellular response to SARS-CoV-2 mRNA-1273 Moderna vaccine in patients with treatment-induced immunosuppression"*  
<https://vimeo.com/774217046/06218d8f99>

P.17.36.PérezIsidro *"Autoantibodies detection by multiparametric assay in patients with Systemic Autoimmune Diseases"*  
<https://vimeo.com/773871457/404154a7f4>

P.18.41.Arrese *"Retrospective revision of non-classical ANCA specificities"*  
<https://vimeo.com/773871749/38779dbc94>

P.19.43.Suarez – **No rebut** - *"NKG2A blockade as a potential target to improve NK cell-mediated ADCC in HER2 positive breast càncer"*

P.20.49.Arnaldos *"Detection of M2-type anti-mitochondrial antibodies against specific subtypes in the diagnosis of Primary Biliary Cholangitis in patients with discordant/low positive results"*.  
<https://vimeo.com/774239018/f7c6c2513c>

P.21.50.Arnaldos *"Potential false positive anti-HLA antibodies against self antigens detected by Single Antigen Luminex technology. How frequent are they?"*  
<https://vimeo.com/774239497/64f53e399a>

P.22.51.Franco *"Three novel HLA alleles found with Next Generation Sequencing"*  
<https://vimeo.com/773873492/e4e3f2d6d8>

P.23.52.Calvet *"CASP10 mutation with Autoinflammatory presentation instead of ALPS in an Ecuadorian girl"*  
<https://vimeo.com/773873808/bbd61b2f3c>

P.24.53.Julià – No rebut - *"Serum calprotectin in COVID-19 patients"*

P.25.54.Casado *"Impact of functional CD5 gene variants on B cell transcriptome"*  
<https://vimeo.com/773874316/0a4aecde2a>
