Nosocomial Pneumonia due to MRSA (ZEPHYR)

IDSA 2010 (ClinicalTrials.gov: NCT00084266)

Población	Linezolid 600 mg/12h IV	Vancomicina 15 mg/kg/12h IV	Total
ITT	597	587	1184
mITT	224	224	448
PP	172	176	348

Diseño: multicéntrico, aleatorizado y doble ciego

Monitorización: c/ 3 d, EOT (72h fin atb) y EOS (7-30 d)

Kunkel M. et al.

Nosocomial Pneumonia due to MRSA (ZEPHYR)

IDSA 2010 (ClinicalTrials.gov: NCT00084266)

Objetivo primario: respuesta clínica en pacientes evaluables con cultivo positivo para SARM (PP) en la visita EOS.

Objetivos secundarios:

- 1) Respuesta clínica en EOS en la población mITT.
- 2) Respuesta clínica en EOT en las poblaciones mITT y PP.
- 3) Respuesta microbiológica en EOT y EOS en mITT y PP.
- 4) Supervivencia a los 60 días.
- 5) Análisis de seguridad en la población ITT

Diseño: multicéntrico, aleatorizado y doble ciego

Monitorización: c/ 3 d, EOT y EOS (7-30 d)
