

19-20
NOVEMBER
2020

On-
line

XIV CONGRESS

CATALAN SOCIETY OF IMMUNOLOGY (SCI)

Joint meeting with European Federation of Immunological Societies (EFIS on TOUR)

Keynote
speakers

Andreas Radbruch

Immunological memory against the dogma

Balbino Alarcon

Inter-TCR crosstalk during antigen recognition

Winfried Pickl

The role of a new T helper cell type, Th-IL-2 cells, in allergic immune reactions

René van Lier

Tissue memory cells at the center of the immune system

Miguel López-Botet

Development of human "adaptive" NK cell populations: open issues

Federica Sallusto

Conventional and unconventional T cell response to microbial antigens

Antonio Lanzavecchia

Unconventional receptor-based antibodies
